Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:
3. The closest prior art, von Bonin (US 4,740,527), discloses a coating for a number of substrates, where the coating comprises the claimed flame retardant compounds. However, von Bonin does not disclose the use of clear coating materials for the noted applications, and the reference also does not specify the applicant's claimed sterically hindered amine compounds. Upon reconsideration, it is the examiner's position that one skilled in the art would not look to apply clear coat compositions to the coatings of von Bonin, since the reference does not suggest such coatings and since the reference does not suggest applications for the coatings that conventionally employ the use of top coatings. Thus, it is the examiner's position that the combination of claimed coating elements would provide a novel and unobvious step over the prior art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melanie D. Bissett whose telephone number is (571) 272-1068. The examiner can normally be reached on M-F 8-4:30.
